As required by the Charter, the City Attorney has prepared the following official petition title and official petition summary of the primary provisions of this initiative ordinance measure to be adopted by the City Council or submitted directly to the voters.

CANNABIS ACTIVITY PERMITS AND REGULATION. INITIATIVE ORDINANCE

This ordinance would establish a City permitting program for cannabis activity, giving priority to existing medical marijuana businesses compliant with current City law (MMBs) and maintaining 135 dispensaries in the City unless increased by the City Council. The ordinance would: 1) authorize the City to issue permits for cannabis activity including the cultivation, manufacture and sale of medical cannabis; 2) provide existing compliant MMBs a limited time to register for initial permits for specified cannabis activity and other priority in the permitting process; 3) allow permitted cannabis activity in certain non-residential zones; 4) provide operational standards and minimum-distance requirements from schools and other sites; 5) authorize fines and other penalties for non-permitted cannabis activity but limit enforcement procedures for violations of the ordinance by permit holders; and 6) allow permittees to operate as adult use marijuana businesses and impose a business tax of \$80 per each \$1,000 of gross receipts from adult use marijuana sales if state law changes to allow non-medical adult use of marijuana.

TEXT OF THE PROPOSED MEASURE:

Los Angeles Marijuana Regulation and Safety Act

The People of the City of Los Angeles do ordain as follows:

Section 1. Title.

This measure shall be known and may be cited as the “Los Angeles Marijuana Regulation and Safety Act.”

Section 2. Finding and Declarations.

(a) In 1996, the voters of the State of California legalized cannabis for medical purposes by enacting the Compassionate Use Act of 1996 (hereinafter, the “CUA”) (codified as Section 11362.5 of the Health and Safety Code). By enacting the CUA, the voters of the State sought to (A) ensure that “Californians have the right to obtain and use marijuana for medical purposes”; (B) ensure that “patients and their primary caregivers who obtain and use marijuana for medical

purposes upon the recommendation of a physician are not subject to criminal prosecution or sanction”; and (C) “encourage the federal and state governments to implement a plan to provide for the safe and affordable distribution of marijuana to all patients in medical need of marijuana.”

(b) In 2003, the California Legislature enacted the Medical Marijuana Program Act (hereinafter, the “MMPA”) (codified Health and Safety Code Section 11362.7) which permits qualified patients and their primary caregivers to associate collectively or cooperatively to cultivate medical cannabis without being subject to criminal prosecution.

(c) The MMPA’s allowance of collective and cooperative cultivation projects allowed for commercial cannabis activity throughout California and particularly the City of Los Angeles, the MMPA did not explicitly regulate the manner of conduct for commercial cannabis activity.

(d) Local governments were encouraged to regulate cannabis activity under the MMPA. (See Health & Safety Code, § 11362.83.)

(e) The California Supreme Court concluded in *City of Riverside v. Inland Empire Patients Health & Wellness Ctr., Inc.* (2013) 56 Cal.4th 729, that neither the CUA nor the MMPA “preempts the authority of California cities and counties, under their traditional land use and police powers, to allow, restrict, limit, or entirely exclude facilities that distribute medical marijuana, and to enforce such policies by nuisance actions.” (*Id.* at p. 512.)

(f) In August 2007, the City enacted Interim Control Ordinance 179027 (hereinafter, the “ICO”), which prohibited commercial cannabis activity but exempted from that prohibition certain existing medical cannabis facilities that timely registered with the City Clerk (hereinafter, “Pre-ICO Medical Cannabis Dispensaries”).

(g) In January 2010, the City enacted Medical Marijuana Ordinance 181069 later amended by Temporary Urgency Ordinance 181530 in 2011 (“TUO”), which added Article 5.1 to Chapter IV of the Los Angeles Municipal Code. After a series of lawsuits and court decisions, the City enacted Ordinance 182190 (hereinafter, the “Gentle Ban”) in August 2012, which prohibited all commercial cannabis activity with limited exceptions for dwelling units used by three or fewer qualified patients, hospices, and licensed clinics, care facilities and home health agencies.

(h) Voters of the City responded to the Gentle Ban Ordinance and its absolute ban on commercial cannabis activity by submitting a referendum petition to the City Council. In response to the comments, objections and proposals, the City Council enacted Ordinance 182286 repealing the Gentle Ban Ordinance in October 2012.

(i) The voters of the City of Los Angeles considered three competing medical cannabis initiatives in the May 2013 municipal elections, ultimately voting to approve Proposition D, Ordinance 182580, which prohibits commercial cannabis activity but provides an immunity from enforcement to Pre-ICO Medical Cannabis Dispensaries that do not violate the specified restrictions contained in this Act, including but not limited to conducting all commercial cannabis activity at one location.

(j) On October 9, 2015, Governor Brown signed into law three bills, Assembly Bill 266 (“AB 266”), Assembly Bill 243 (“AB 243”) and Senate Bill 643 (“SB 643”) collectively referred to as

the “Medical Marijuana Regulation and Safety Act” which established a comprehensive regulatory structure for commercial cannabis activity (hereinafter, “MMRSA”). Unlike the MMPA (which only provided persons conducting commercial cannabis activity a defense in court) MMRSA affirmatively permits and licenses commercial cannabis activity conducted in accordance with local ordinances and MMRSA’s to-be-issued regulations.

(k) An expressed intention of the voters in enacting Proposition D was to was to amend Proposition D once there was clarity at the State-level “regarding what cities can and cannot regulate” concerning commercial cannabis activity in California.

(l) MMRSA has provided the City of Los Angeles clarity “regarding what cities can and cannot regulate” concerning commercial cannabis activity in California.

(m) The underlying “spirit” of MMRSA is one of regulating commercial cannabis activity entities and affirmatively permitting and licensing those medical cannabis business entities that comply with promulgated regulations.

(n) The City of Los Angeles intends to issue permits for dispensing, cultivating, nonvolatile manufacturing, distribution, transport and testing of cannabis subject to strict zoning and regulatory requirements, in full accordance with MMRSA but specifically is not licensing nor permitting the delivery of cannabis in the City of Los Angeles.

(o) The voters of the State of California will vote in November of 2016 on the Adult Use Marijuana Act initiative, which utilizes MMRSA to regulate the Adult use of marijuana without a physician’s recommendation.

(p) This Act: (a) allows commercial cannabis activity subject to a permit program administered by the Los Angeles Department of Medical Marijuana Regulation that imposes comprehensive requirements and limitations on applicants, permittees, and locations conducting commercial cannabis activity; and (b) amends Proposition D by providing a limited window for Pre-ICO Medical Cannabis Dispensaries operating in compliance with the City’s laws and regulations to register with the Los Angeles Department of Medical Marijuana Regulation.

Section 3. Amendment to Article 5.1 of Chapter IV of the Los Angeles Municipal Code

Article 5.1 of Chapter IV of the Los Angeles Municipal Code is replaced in its entirety to read as follows:
